FOR DESIGN PROFESSIONALS

Wednesday, June 24, 2009 ❖ 200 Tarrytown Rd., Elmsford, NY 10523

7.0 LU's/HSW

DPC ASSOCIATES

WORKSHOP EVENT SCHEDULE - 06-24-2009 HAMPTON INN, WHITE PLAINS-TARRYTOWN, 200 TARRYTOWN RD., ELMSFORD, NY 10523

Total credit: 7.0 LU/ HSW/SD/ PDH

<p>Green Power Systems and How They Can be used in Sustainable Design projects Instructor: Andrew Topinka, USGBC - NJ Chapter 1.25 LU HSW/ SD 8:30 AM - 9:45 AM</p>	<p>Receive an "in-depth" review of alternative ways of powering green buildings. Topics to be addressed include: a) Environmentally Friendly Power b) Achieving 30% Less Losses Towards a Net Zero Energy Building c) Measurement and Verification d) Power Systems Contributions to LEED</p>	<p>Solar Power Systems and How They Can be Used in Sustainable Design Projects Instructor: Andrew McNamara, LEED AP, CEM 1.5 LU HSW/ SD 1:00 PM to 2:30 PM</p>	<p>Attendees will learn about the latest technologies available now in the field of renewable energy. Topics to be addressed include: a) What types of systems are available and what are their green features? b) Available incentive programs c) Contributions to LEED points</p>
<p>Building Green Exteriors Using Fiber Cement Products Instructor: Gerald Bass, Nichiha Fiber Cement 1.0 LU HSW/ SD 10:00 AM to 11:00 AM</p>	<p>Understand the importance of using green building materials for building exteriors & which green exterior materials are available. Learn about fiber cement products for green applications, including case studies of light commercial, hospitality, restaurant, health care & residential applications.</p>	<p>Structural Insulated Panels as a Tool For Building Sustainably Instructor: Chris Bloom 1.0 LU HSW/ SD 2:40 PM to 3:40 PM</p>	<p>Learn about a building product and construction method which has been around for some time but is now quickly growing in popularity, especially amongst the 'green' community. This way of building involves utilizing prefabricated, structural panels that provide high insulation levels. Case studies will be presented.</p>
<p>Natural Waste Treatment Systems Instructor: Don Mills, Clivus Multrum, Inc. 1.0 LU HSW/ SD 11:15 AM to 12:15 PM</p>	<p>Attendees will see how the compost toilet can be combined with a greywater system which reuses water from sinks, showers, and washing machines and uses it for plant irrigation to produce healthier and more sustainable wastewater treatment systems.</p>	<p>Sustainable Storefront Systems Instructor: Tom Minnon, LEED AP, YKK 1.25 LU HSW/ SD 3:45 AM to 5:00 PM</p>	<p>Attendees will learn about the environmental benefits of curtain wall & storefront systems and how they can be used to enhance green building designs. The program will include material on structural & thermal design and will address fabrication & installation concerns.</p>
